

**RECRUITING DRIVE  
WILL GO OVER THE  
TOP BY WEEK END**

Judging From Enthusiasm of  
Members Who Will Give  
It the Finish.

**NEED ONLY 26 MORE MEN**

George Benick, Who Served Seven  
Years in Regular Army and Rose to  
First Lieutenant to Have Same Rank  
in Company D; Four More Sign Up.

That the recruiting drive of Company D will be put across this week was the sentiment expressed at a meeting of a majority of the recruits already secured who gathered in the club room at the armory last evening. The men will themselves carry the campaign to a whirlwind finish. It is the enthusiasm to which they were stirred by the meeting is to be taken as an indication of what they intend to do.

Captain A. R. Skomp explained in detail and very clearly the objects of the meeting, giving the men facts and information they can present to prospective recruits. He dwelt at length upon the advantages to be derived from the equipment of the armory as a club for the exclusive use of the members, of the company, and all without cost to them. The opportunities for the development of athletic activities will surpass any ever before provided in Connellsville, he said, while there will be other features that will make membership in the company more attractive than ever before.

He alluded to the explanation made in a recent issue of The Courier of the "strike duty" objection that has been raised by some persons who do not understand the situation, reading a circular letter from regimental headquarters in which the information given by The Courier is being disseminated. Captain Skomp spoke plainly of the efforts that are being made in certain sections by some members of labor organizations to dissuade young men from enlisting in the National Guard. He expressed his sympathy with and admiration for the labor organizations which are conducted on correct principles and gave it as his candid opinion that those who are counseling interference with enlistments are not themselves regarded as good union men by their own organizations, labor having proven its patriotism and loyalty beyond question during the war.

The organization of the Sponsor Club was pointed out by Captain Skomp as an extraordinary feature, the first, and so far as known the only organization of the kind in the state. It will be the means of adding to the social life of Company D an attractiveness never before known and not at present enjoyed by any other company in the entire division. Captain Skomp concluded his address by reminding the men that the recruiting drive must not fail. The success of the fund campaign depends largely on putting the reorganization of the company across promptly. This, he said, can be done by the men themselves recruiting from among their friends a sufficient number of men to complete the quota.

Harry Dunn and John L. Gans, former company commanders, following Captain Skomp, each pointing out the opportunities the members of the company have to make it what they would like it to be.

Captain Skomp introduced George Bewick of Leisenring No. 3, who is to be the first lieutenant of Company D, to which position he has been recommended by the adjutant general's office. Lieutenant Bewick made a brief address recounting his varied experiences in the Regular Army, with which he served for seven years, rising from private to corporal, sergeant, second and first lieutenant, receiving his honorable discharge upon his return to this country after almost two years' service in Siberia.

Lieutenant Bewick was born and raised at Mount Pleasant and with the exception of his army service spent his entire life in the Connellsville coke region. While employed at Leisenring No. 2 in 1912 he enlisted in the Regular Army and was assigned to the 26th Infantry. In October, 1915, he was transferred to the 13th Infantry and sent to the Philippines. About a year later he was transferred to the 31st Infantry, serving at Camp McGrath, province of Batangas and at Fort William McKinley, province of Luzon. On April 11, 1918, he was commissioned second lieutenant and assigned to the 27th Infantry at Manila. In August of the same year he was sent with the 27th Infantry to Siberia, taking part in all the duty of that regiment in its movements from Vladivostok to Lake Balkul, Irkutsk, Khabarovsk and Ousk. On November 1, 1918, he was promoted to first lieutenant. He returned to the United States with his regiment in May, 1919, and was shortly afterward honorably discharged. Since his return to civil life he has been employed at Leisenring No. 3.

The addition of four recruits last evening swells the enrollment to 74, leaving but 26 to be enlisted to put the company over the top. The recruits received last evening were: Edward Nicholson, aged 21; William Johnson, aged 19; Levi Sullivan, aged 18, and Melvin Sander, aged 18, all of Snyder town and all without previous military experience.

**EAST PARK HOMES  
CHANGE OWNERSHIP;  
OTHERS TO GO UP**

J. Howard Henderson Property and  
That of Mrs. James B. Hogg  
Are Included.

Several real estate deals, in which homes in Wills Road change ownership, were recently transacted. Henry Porter has closed a deal with Norman G. Ketchner for his property, which was formerly owned by J. Howard Henderson, for a consideration of \$8,500.

J. C. Long sold his residence to Frank Brown and purchased a property from Mrs. James B. Hogg. Both are modern brick houses. W. C. Henderson and family, who occupied the residence purchased by Mrs. Long, will move to Pittsburgh, where Mr. Anderson will take charge of the United States Glass company. He was with the Captain Glass company at South Connellsville until recently.

Ralph K. Long has bought a lot near the bend of the road and has let the contract for a tapestry brick residence, work on which will be commenced not later than next week. Dr. E. B. Edie has also purchased a lot there and will erect a modern home.

**EVERSON HOUSE  
GUTTED BY EARLY  
MORNING BLAZE**

Former Well-Known Hostelry  
Complete Wreck; Child  
Saves Tenants.

**ALL THE TENANTS ESCAPE**

Cries of a child, which awakened the mother, probably saved the occupants of the Everson House at Everson, converted into a boarding house, when fire broke out between 3 and 4 o'clock this morning and practically destroyed the place, completely gutting it. The child was that of John Stachowki, the owner of the building and proprietor of the boarding house. The hotel property recently was sold by G. F. Corrado of Dunbar to Mr. Stachowki. At the time it was said the consideration was \$38,000. At that time the place held a license.

The fire is said to have started in the dining room but from what cause was not determined. The Everson firemen responded and then a call was sent to the Scottdale departments. Three alarms were turned in. There was some insurance on the building, it was said. The tenants were driven out in a temperature hovering close to 20 degrees and with a strong wind blowing. The hotel building was erected 20 or 40 years ago. It was a three-story brick structure, containing about 20 rooms, exclusive of the bar which was in addition to the main building. For a number of years before the days of prohibition it was operated by George Pisula and his brother, the late John Pisula. "Billy" Hay of Prittsstown once ran it.

Its last days before prohibition were said to be the best for the hotel. When Westmoreland county went dry, in advance of the remainder of the country, the Everson House enjoyed unprecedented prosperity, because of its location just across the line from Scottdale.

**LABORERS ONLY**

Are Affected by Walkout at Capstan Glass Plant.

Only the laborers at the Capstan Glass company's plant took part in the walkout which occurred there yesterday, following refusal of the company to pay 55 cents per hour straight instead of the graduated schedule of 45 cents to new men; 55 cents after the first six months; 55 cents after a year's service.

A number of the men returned to work this morning; others will do so tomorrow.

**GASOLINE CAUSES DEATH**

Hecla Woman Tries to Use It to Start Kitchen Fire.

Special to The Courier.

MONTE PLEASANT, April 6.—Attempting to start a kitchen fire with gasoline cost the life of Mrs. Mary Orawick of Hecla. She died this morning at the Memorial hospital here. She was 35 years old and leaves a husband and several children.

The accident occurred Monday morning.

**EFFICIENCY LACK  
WILL BE CHARGED  
TO WATER COMPANY**

Low Pressure in Hill Districts  
Que of Drawbacks to  
System.

**EXPERT TO BE EMPLOYED**

Lack of efficiency on the part of the Connellsville Water company will be one of the chief points to be put forth by the city in the proposed fight against the rate increase which is scheduled to become effective May 1, according to discussion at the meeting of council last night. Reference was made to the low pressure in the hill districts, particular attention being invited to Tenth street, West Side, at the time of the fire which badly damaged the home of Harmon Hay a short time ago.

South Connellsville, said Councilman Jesse L. Cypher, is planning to install 15 fire hydrants. These will be placed in the hill districts, and the result will be that should there be serious fires at South Connellsville and in the city at the same time Connellsville would be without adequate supply.

Employment of an engineer to assist in preparing the protest was suggested by Solicitor E. C. Higbee. The water company will have its experts and the city cannot do less to protect its interests, he said. The suggestion was adopted.

A representative of the water company from New York will meet with council next Monday evening to discuss the situation generally, including repairs and improvements, it was said.

**WAR VETERAN DIES**

John H. McMillen, Dunbar, Served in  
Rebellion With West Virginians.

John H. McMillen, 72 years old, a veteran of the Civil War, and one of the oldest and best-known residents of the community of Dunbar, died Monday night at his home near the furnace. The deceased had resided in that vicinity for about 50 years. He was a member of the Sixth West Virginia Cavalry and of William C. Kurtz Post No. 104, Grand Army of the Republic, of Connellsville. His widow and the following children survive: Mrs. Archie Reed, furnace; Mrs. W. D. Cornelius, Houston, Tex.; John B. at home, and Mrs. Homer Cunningham, Connellsville. Nine grandchildren and two great grandchildren also survive.

The body will be removed by Funeral Director J. T. Burdass of Dunbar to the residence of the deceased's daughter, Mrs. Reed, where the funeral will be held Thursday afternoon at 1:30 o'clock, followed by services at 2 o'clock at the Dunbar Methodist Protestant church. Rev. O. W. Bolton, the pastor, and Rev. W. H. McKelven will officiate. The interment will be made in Mt. Auburn cemetery.

**BOOSTER BANQUET**

Annual Gathering at Meyersdale Is  
Scheduled For Thursday.

Special to The Courier.

MEYERSDALE, April 6.—Arrangements for the community boosters' annual banquet Thursday evening in the Methodist Episcopal church are now complete. Congressman Everett Sanders of Terre Haute, Ind., and Congressman S. A. Kendall will be the principal speakers. Music will be furnished by the high school orchestra and a double quartet composed of Messrs. Butler, Leith, Cook, Burr, Worth, Clunker, Rush, Price and Baird. Songs will be rendered by Prof. William Butler and Eugene Hostetter. The catering will be in charge of the ladies of the Methodist Episcopal church.

It is expected that the boards of trade from Somerset, Salisbury, Berlin and Rockwood will be present.

**FORTY RECRUITS**

Secured For Company E, Tenth Regiment  
at Mount Pleasant.

Forty men were enrolled in Company E, Tenth Regiment, at the armory in Mount Pleasant on Sunday afternoon. Unless other persons are interested, Dr. John L. Burkholder is likely to be made captain and William Spierke and Wilmer Fox lieutenants.

To Fix Tax Levy.

The school board will probably meet during the week to fix the tax levy for 1920.

**LAST NIGHT COLDEST  
FOR APRIL 5 IN NINE  
YEARS; MERCURY AT 24**

Heavy Damage May Have Been Done  
to Peaches and Other Early Fruits,  
Peeping Into the Open.

Aside from the first two days of April, 1919, the temperature last night was the coldest in the same month for nine years. The official thermometer registered 24 degrees, or just eight degrees below the freezing point. Ice was formed along the edges of streams before midnight and with the chilly winds that blew, the city experienced another real wintry snap.

In April, 1919, a temperature of 20 degrees was registered on the first day followed by a 22 degree registration on the second. Those figures were by far the lowest for April in eight years.

There were some doubts expressed this morning as to whether what might have been caused. While the consensus of opinion was that fruit had not advanced far enough to be materially hurt by the cold, there were some who believed peaches might have been brought along too far by the two weeks of sunshine to escape the freeze.

While the forecast today predicted light snows, warmer weather for tonight was also expected.

**NUMEROUS PLACES  
BID IN BY B. & O.  
OFFICE EMPLOYEES**

C. V. Payne Is Promoted to Assistant  
in Car Distributor's  
Department.

The following appointments, bid in by Baltimore & Ohio railroad employees through seniority, have been announced at Connellsville division offices:

Assistant car distributor, C. V. Payne, formerly chief clerk in the office of the train dispatcher.  
Chief dispatcher's clerk, first track, H. L. Asher; second track, C. G. Sheets; third track, P. S. Pickard.

General clerks in master mechanic's office, Catherine Shaw and Leona McCutcheon.

Clerk in car foreman's office, Mrs. Margaret Falkenberg.

Work report writer in master mechanic's office, G. M. Erickman.

Work checker in master mechanic's office, J. N. McKelrick.

Tallyman at the freight station, J. A. Jaques.

Yard clerks, W. M. Blough, C. B. Sparks and H. A. Evans.

Yard clerk and stenographer, J. T. Butler.

Clerks, D. W. Shaw and W. Frisette.

Callers and clerk, J. D. Butler.

Rate clerk, A. S. Griffin.

Trace clerk, Vera M. Lowmich.

Receiving clerk, H. H. McClelland.

**50 YEARS WITH B. & O.**

Thomas S. Wood, Veteran in Service,  
Continues to Work in Unbroken.

Thomas S. Wood, employed in the baggage department of the Baltimore & Ohio railroad in Uniontown, today closed 50 years of service with the company. He did not quit work, however. Wood started work as a messenger out of the office of the superintendent of the Pittsburgh division in Pittsburgh. He was a brakeman on the first passenger train from Pittsburgh to Cumberland. Subsequently he was conductor, yardmaster and in several other positions.

Speaking of the early days of railroading Wood told this story: When times were not so prosperous as they are now and men took more time to satisfy their appetites it was their custom to gather in groups at old Gibson Junction to eat their lunches. Invariably they ate their pie first—so that if they should be killed they would not have missed it.

**"DRY HOLE" PRODUCERS**

Will Shortly Be Possible in McKeesport Gas Field.

The Manufacturers Light & Heat company is planning to do big things for the McKeesport gas field. A station on the main will be erected immediately, making it possible for the supply of gas to be taken from what is called "dry holes."

The company will make it possible for the promoter of any proposition to pay out if he only has a flow of a few thousand feet of gas instead of millions. If there is any gas at all the Manufacturers Light & Heat company will take it and pay the highest price for it. Gas will be taken from all of the wells in the fields.

**Weather Forecast**

Threatening with probable light snows tonight or Wednesday. Somewhat warmer tonight is the noon weather forecast for Western Pennsylvania.

**CONTRACTS LET  
BY CITY COUNCIL  
FOR TWO STREETS**

Paving Francis Avenue Will  
Cost \$20,953; First  
Street, \$42,397.

**REPAVING IS CONSIDERED**

Public Meeting Called For Thursday  
Night at City Hall to Discuss Crawford  
Avenue and Pittsburgh Streets;  
Arch Street Paving Again Is Up.

Contracts for two streets—Francis avenue and First street, the latter on the West Side—were awarded by city council Monday night, while at the same time further attention was given to the proposed repaving of Crawford avenue, this being supplemented by a move to similarly improve Pittsburgh street from Lincoln avenue to Green street.

L. Alfredo DePolo was awarded the contract for Francis avenue, his bid being \$20,953.05, as compared with \$21,481.80 by the Cochran Construction company, and \$23,540.75 by Malachi Duggan. Mr. Duggan was the successful bidder for First street, better known as First, his proposal being \$42,397.15. The Cochran company bid \$48,988.45, and Mr. DePolo, \$45,255.80.

Layton brick was specified by council for both streets.

Mr. Duggan agreed to accept 40 per cent of the contract price in short term bonds. What Mr. DePolo will take was not specified. The Cochran company agreed to take 75 per cent. In order that the proposed repaving of Crawford avenue may be laid before the people a public meeting has been called for Thursday evening at 7:30 o'clock at city hall, over which the mayor will preside. At the same time it is expected there will be discussion of Pittsburgh street.

Whether it will be necessary to borrow money will be in the meantime determined by City Solicitor E. C. Higbee. Mr. Higbee suggested that it would be possible to finance by the issuance of bonds payable in three years.

In the meantime ordinances will be drawn.

Preparatory to resuming work on the improvement of Arch street, between Church place and Green street, it was suggested that the West Penn Railways company be asked to shift its track to the west side of the street, under a previous agreement, and also to extend the Connell run culvert.

The contract for this work awarded to Malachi Duggan several years ago, will be cancelled and new bids will be asked.

Councilman B. L. Berg reported to council that the Joseph Scisson Fire Brick company is replacing defective bricks in East Park streets, also in Chestnut street and Isabella road and Washington avenue. Something must be done to have Angle street from destruction by water getting under it, council was told.

Complaint was made of a depression in newly paved Murphy avenue. Council will investigate.

A change in the grade of Arch street may get the city into litigation. John Dean appeared before council with a request that there be a definite decision as to what is to be done to reimburse him for loss he says he sustained by reason of raising the grade in front of the Dean Bottling works. No satisfactory agreement was reached and Mr. Dean left the room saying he would find a way.

**IDEA FROM DIME NOVEL**

Fairchance Youth Explains Why He  
Started Forest Fires.

That he got the idea of setting fire to the woods near Fairchance and then writing the "champion firebug" letters from dime novels today, his arrest followed comparison of his writing with one of the letters he sent. **SCHOOL HEADS TO MEET**

Salaries and Other Matters to Be Considered  
in Pittsburgh.

A conference of county superintendents of schools in Western Pennsylvania will be held in Pittsburgh April 13 to consider problems vital to the welfare of the schools. John S. Carroll of Dunbar will be the Payette representative.

Teachers' salaries and the need of keeping the standard of the profession high will be among the matters for consideration.

**Forty Hours' Devotion.**

Forty hours' devotion which is being observed by the congregation of St. Rita's Italian Catholic church, will close with services tomorrow night at 7:30 o'clock. Rev. L. McNamany, assistant to Rev. John T. Burns, will deliver the sermon. Rev. Paul Glenn of Scottdale will preach tonight.

Glover-Ganger.  
Mrs. Mande Glover of this city and Clarence Ganger of Pennsylvania, Pa. were married Sunday morning at 9:30 o'clock at the United Brethren church parsonage by the pastor, Rev. J. S. Showers.

**SENATOR JOHNSON  
IS FAR IN LEAD OF  
WOOD IN MICHIGAN**

Margin of Over 44,000 For California  
With Half of Precincts Yet to  
Be Heard From.

By Associated Press.  
DETROIT, April 6.—With approximately one-half the precincts voting in yesterday's presidential primary tabulated this morning, Senator Johnson held a lead of 44,857 votes over Major General Wood for the Republican endorsement. The figures from 1,200 precincts gave Johnson, 106,557; Wood, 61,839.

Included in the figures was the complete vote of Detroit, practically complete from Grand Rapids and more than half the precincts in other industrial centers.

Herbert Hoover, whose name appeared on both ballots, was leading the Democratic ticket, with 11,659 against 10,250 for Governor Edwards of New Jersey.

**FRENCH PUSH ON  
SEVERAL MILES  
PAST FRANKFORT**

Occupation of German Territory  
Extends to  
Erkenheim.

**NOT HOSTILE TO PEOPLE**

By Associated Press.

FRANKFORT, April 6.—Frankfort was occupied without incident by French troops early today and, with the cavalry in the lead, followed by the infantry and the artillery, the occupying forces pressed rapidly beyond the city. They met with no opposition. By 10 o'clock in the morning the cavalry had reached Erkenheim, three miles north of Frankfort. The entire operation was expected to be completed during the day. The occupation takes the form of an extension of the French lines around the bridgehead of Mayence, a distance of about 18 miles. The extreme limits of the advance form a semi-circle similar to but larger than that of the original zone of occupation.

MAYENCE, April 6.—General DeGoutte has issued a proclamation to cities and towns within the area to be occupied declaring French troops have crossed the Rhine to compel the Berlin government to respect its agreement with the Allies and asserting there is no hostile intent toward the people of that region. The proclamation says the French will withdraw as soon as German forces have evacuated the neutral zone and declared no one will be affected by the presence of the French as long as order is maintained.

**WAGE CONFERENCE**

Final Steps in Pittsburgh District Are  
Under Way Today.

By Associated Press.

PITTSBURGH, April 6.—Entering on the final steps of the two year wage settlement in the bituminous coal fields in which the President's commission recommended a 27 per cent wage increase, wage scale committees of coal operators and miners in the Pittsburgh district went into joint conference here today.

The conference will apply to this district the general settlement reached recently in New York and following the meetings here District No. 5, United Mine Workers will reconvene the district convention to approve the settlement.

**FORTY-FOUR TAKE  
TEST FOR MINE  
FOREMANSHIP**

Class in Ninth Bituminous District  
Nearly Double That  
of 1919.

**IN PROGRESS THREE DAYS**

Friday Will Be Given Over to Examination  
of Applicants for Positions  
as Fire Bosses; Mine Inspector S.  
S. Hall Is in Charge of the Tests.

The annual examinations for mine foremen in the Ninth Bituminous district opened this morning at the 44 candidates reporting for the tests. The examinations were being given under the supervision of Mine Inspector S. S. Hall, who is assisted by James Conway, representing the miners, and John W. Grovane, representing the operators.

The size of the class this year almost doubles that of 1919, when 23 men made application to take the examination. The men come from all over the district and most of them will take the entire three day course.

To get a second grade mine foreman's certificate a candidate must make an average of 80 per cent on the first two days; an assistant mine foreman's certificate, an average of 70 per cent on the first two days and an average of 70 per cent on the third day. To become a first grade mine foreman a candidate must make an average of 80 per cent on the first two days' tests and 80 per cent on the last day.

The examination for mine foreman will be continued Wednesday and Thursday and on Friday the fire boss tests will be given. A class of 65 men is expected to take the latter examination, there being approximately that many applications filed now.

"LISTEN LESTER" FINE

Every Minute of Musical Comedy Show

Full of Entertainment.

One of the best musical comedies seen in Connelville in recent years was "Listen, Lester" last evening at the Sonson theatre. The large audience enjoyed every moment of the show, which provided more than two hours of real entertainment. The chorus was composed of pretty girls, who could dance and sing well, and the orchestra was splendid. Joseph Mack as "Lester Lee," the porter, and Gus Shy, as William Penn, Jr., the fixer, furnished the comedy of the evening, while Virginia Watson, as "Mary Dodge," by her clever dancing and dainty manner won the admiration of the audience at her first appearance on the stage. Mayne Gehring, in the role of "Arbutus Quilty," was also charming and came in for a great share of applause. Joe Thomas as "Tillie Mumm" lends much to the success of the show, while Irving Brooks, Bert Gardner and the members of the Clippert quartet made a big hit.

There are several especially tuneful songs including "Waiting for You," "When Things Come Out Right."

"DANDERINE"

**East Game Tonight.**  
The Scottdale alumni basketball team defeated the St. Vincent's high school five by a score of 30 to 29. Carroll, Gordon, Waughman, Bloom and Might played for the alumni and Gordon, Lester, Maloy, Knowles, Rice and Murphy played for the high school.  
The final game in the Scottdale season will be played at the "Y" gym this evening. St. Vincent's club which won earlier in the season from the Pay-Mo-Mes, will endeavor to make it two games over the "Y" team, which plan to retrieve the loss sustained earlier in the season. The 26-26 victory which St. Vincent secured when they last played here makes it a contest of winning tonight, while the local boys are just as confident. The Pay-Mo-Mes team will start off with Holmes and Lester, forwards; Gordon, substitute; Maloy, center; Knowles and Murphy, guards, and Rice as substitute.

**Near East Reports Wanted.**  
It is the desire of the chairman of the Near East drive that the various units and industrial committees who have not yet made a report do so by Saturday, April 10, to Miss Martha Workman at the Scottdale Trust company.

## LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back Its Color and Lustre With  
Grandma's Sage Tea  
Recipe.

Common garden sage, brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.—Adv.

## EDWARDS TO GIVE TIME TO WORK IN CITY TERRITORY

Another Will Be Assigned to Supervision of New World Work in Fayette and Somerset.

The appointment of Rev. J. Earle Edwards over the territory of Somerset and Fayette counties in the New World Movement campaign program has been reconsidered at the minister's own request to allow him to spend his time to better advantage, as he feels, in answering the call of State Director W. G. Russell of Philadelphia to come there for the immediate future.

The First Baptist church has released the pastor, between Sundays. He went to Pittsburgh today to take charge of the Allegheny county conference of the New World Movement of Northern Baptists. Tonight he will go to Philadelphia where he has been engaged to speak Wednesday, Thursday and Friday evenings and to hold conferences during the day. The following week he will spend from Monday to Friday daily in Philadelphia and vicinity in the interests of the campaign.

## GREATEST OF ALL BLOOD PURIFIERS

In the Spring Everybody Needs Evans' Triple Phosphates to Restore Energy, Appetite and Ambition.

Nervous rundown men and women whose strength has been sapped by confinement to home, store or office during the winter months by an attack of influenza, Grippe or other wasting sickness and who feel the need of more strength, better assimilation and a quick and effective tonic up of the nerves, will find nothing to compare with Evans' Triple Phosphates. It is really wonderful what this famous tonic will do for frail, rundown people who have no appetite or ambition.

If you want to see the glow of healthy blood in your cheeks, have bright eyes and be full of energy and ambition, let your heart for better health begin now.  
All great pharmacists dispense Evans' Triple Phosphates in the original bottle on the money back if dissatisfied plan. You are sure to get it at C. Roy Hertz.—Adv.

## Fighting Hunger

Hunger is never more than a few days away from the American people.

The coal strike showed us what a narrow margin the country goes on, even in a non-perishable necessity which can be stored.

Swift & Company is engaged in the business of fighting hunger.

From coast to coast, from the Great Lakes to the Gulf, the lines of defense are drawn—packing plants at strategic points; branch houses in four hundred towns and cities; hundreds of car routes; thousands of refrigerator cars; tens of thousands of loyal men and women expert in their work.

Day by day, hour by hour ceaselessly, this fight, your fight, goes on. Yet so smoothly, surely and victoriously that you, unaware how close hunger always is, are as certain each night of tomorrow's meat as you are of tomorrow's sun.

And so economically is this done that the cost to you for this service is less than three cents a pound of meat sold. The profit shared in by more than 30,000 shareholders whose money makes the victory possible is only a fraction of a cent a pound on all products.

If hunger did not make it necessary for us to fight this fight in the best possible way for all concerned, the competition of hundreds of other packers, large and small, would compel us.

Swift & Company, U. S. A.

## Influenza Prescription Here From Scotland

SUCCESSFUL OVER THERE.

In Scotland when Flu threatens people start at once to breathe air which they purify themselves by a very simple method.

One of Scotland's learned doctors discovered it, prescribed it and soon its power to destroy influenza germs was heralded all over Scotland.

Recently the formula of this successful prescription reached America, and now the better pharmacists are dispensing it freely under the name of Hyomei.

When you try this Scotch inexpensive remedy, pour a few drops on a handkerchief and hold it to your nostrils. Another facile method, and one widely in use, is to sprinkle it on your pillow when going to bed and thus breathe this germ destroying air during the night while sleeping.

It seems to invigorate and refresh the very air you breathe and you can feel it going deep into the lungs.  
In Scotland people call this purified air "breathing" the air being, of course, that the air being impregnated with antiseptic Hyomei, the germs that congregated in the delicate membrane of the nose, throat and bronchial tubes are destroyed.

It is so subtly penetrating that a few breaths will open up clogged nostrils and soothe and heal the sore, inflamed membrane. Conneltsville Drug Company sells lots of it.—Adv.

## THE KITCHEN CABINET

FOOD FOR THE CHILD.

So make it your intention With proper comprehension To see the world from every point of view.  
Smile on if you're defeated, Or smile if you think you're cheated; Smile on and soon the world will smile on you! —Caroline Sumner.

Children are far more restricted in their diet than are grownups, and they are more dependent upon special foods. We all need a diet so balanced that it will produce the highest efficiency, but the food for a growing child must do more than that. The growing child is building new flesh and bone. For this reason the child should have a larger proportion of body-building foods than adults. Milk is the most important; eggs, butter and well-cooked cereals, with top milk, are very important in the diet of the child.

We are told repeatedly by those who have made a study of the diet of the child that no mother should buy a pound of meat until she has purchased a quart of milk for each child in her family.

Milk is the ideal food for the child. It contains the elements needed to promote growth with the exception of iron. This element is given the child in such vegetables as spinach, beet greens and carrots.

As the child grows and becomes very active other foods are added, such as starchy foods, which supply energy. When milk is unpleasant to the child give it to him in cream soups, custards and cocoa. The older members of the family may be undernourished on milk, but never let the children want for it.

Dishes made chiefly of milk, meat, fish, poultry and eggs, with meat substitutes, form the most important group in the well-balanced ration. Then come cereals and bread; then fats, of which the most important is butter. Do not give children fried foods which are hard to digest. Fruits and vegetables are next; then simple sweets such as dried fruits or pure candies. Candy should always be given at the end of the meal, never before.

Wheat taken from the granary, well washed, soaked over night, then cooked in the same water until well cracked and covered with gluten, is one of the most desirable of foods for growing children. Serve it with top milk.

## SHAME UPON US!

What a pointed and merited rebuke is it that "A Wounded Soldier" administered to an indifferent, ungrateful and forgetful nation in his unanswerable statements in these columns yesterday about the hesitancy of Congress to grant the ex-servicemen "as fair a start as the slacker who stayed at home received!"

It will ever be to the lasting discredit of our great country, that making provision for at least partially adequate compensation for the men who served it in the hour of need, has been so long delayed. But it is, as the soldier states, simply "the same old story for the same old way. When trouble is brewing, when the war clouds form and the actual sound of the enemy's artillery is heard, the soldier is the hero and the country is back of him." But after he has finished his job, and returned to pick up the threads of life again and try to make good the loss he suffered while in the service, he becomes "a grifter" and "extortioner" if he asks for pay.

We swooned with pride and became unreasonably proud of what we were doing for the soldier while he was fighting. But how soon have we forgotten both our pride and our boasts no less than our promises that the fighter should be fairly treated and recompensed as adequately as it would be possible to do. On part of the stay-at-home patriots it has been a mad rush to get back to money-grabbing even before the returning service men were given a formal welcome home. Instead of freely, willingly and gladly granting them some recompense for the sacrifice they made for us, we have dawdled along and virtually compelled the soldiers, in humiliation and despair, to ask for something.

Shame upon those who are responsible for the delay in giving just due to those whom the nation can never fully repay! Still greater shame upon all who have broken faith with them!

## A TAX ON SALES.

The increasing probability that the excess profits tax will be lifted before the end of another year is arousing interest in the form of taxation that will take its place. Although many predictions have been made, no such good fortune is at present in sight and will not be until the war debt is materially reduced and there has been an end to the prevailing prodigality in government expenditure.

The most conservative estimate places the amount necessary to be raised by taxation at from \$4,000,000,000 to \$5,000,000,000 per year. It has been agreed that the excess profits taxes will be discontinued, the treasury officials and members of the Ways and Means Committee of Congress are working on plans to substitute taxation of a different form. What this will be has not been determined but the present indications are that a tax on sales will be decided upon. One of the chief difficulties encountered in the formulation of plans is agreement as to what commodities should be covered by the proposed tax, whether it should apply only to the sales of raw materials, or only to sales of manufactured products.

In any event, if an agreement is finally reached, the tax will consist of a flat percentage upon gross sales. Whether it will include resales, or will be laid on the final sale to the consumer, is to be determined. Objections have been offered to a sales tax on raw materials because it would tend to discourage production. Applied to the sales of finished products it would simply be a consumption tax falling directly upon the consumer, who already pays more than his share of burdens. To apply it to the turnovers, or the various sales that occur between the sale of raw material and the final sale of the product, would make the final cost to the consumer unreasonable, just as it is under the present system of "passing the buck" of the excess profits tax.

It is estimated that the turnover in the United States in 1919 was between 1,400 and 1,500 billions of dollars. If the transactions on the exchanges, such as stock, grain, cotton, etc., are excluded, as has been proposed, there would remain something like 1,000 billions of dollars of sales to be taxed. Should the tax be laid on final sales only there might be a further reduction to 500 billions. With the levy of one per cent, which is being considered as the millage, sales of 500 billions would produce a revenue of \$5,000,000,000 a year, or sufficient to meet the estimated needs of the government.

This is quite the most radical departure from any other system of taxation ever used in the United States. It is consistently levied,

and so bad that every citizen as well as alien resident is required to pay his just and equal share, and without being provided opportunity to pass the tax on until it becomes a burden for the ultimate purchaser alone to pay. It may prove much more equitable and equitable than the excess profits tax. If otherwise it will be manifestly unfair and disproportionate and less popular than the excess profits tax, the glaring evils of which it is sought to correct.

It may be "On to Berlin" yet. In any event it will be safe to leave the matter to Marshall Fock as it would have been much the wiser to have done so November 11, 1918.

The coal and coke producers are apparently only out on bail, so far as appears from some of the Fuel Administration regulations.

With the distance three-quarters covered, watch the boys of Company D make a whirlwind finish of the recruiting drive.

As a plaything the dynamic cup still holds second place to the didn't-know-it-was-loaded gun.

## The League is Dead; Long Live the U. S.

From Manufacturers Record.

The greatest political victory ever won for American sovereignty, American independence and world benefit was the victory which saved this country from becoming a vassal of European and Oriental potentates, foreign to our form of government, foreign to our traditions and certain to destroy our independence and thus destroy the last hope of mankind for safe and sound democracy. The men who led this fight against the tremendous influence of the Administration and the sentimental gun which sought to make Americans believe that to sacrifice their country was a religious duty have rendered a patriotic service of incalculable importance.

As well might a man have been taught to destroy his family in order to distribute affections over other families as to have been taught that the must sacrifice American safety and independence by entering into a League of Nations in which other countries, marching and heathen, would have had the absolute right to decide what we as a nation should or should not do.

When President Wilson declared that he would so completely intertwine the peace treaty and the League of Nations that they could not be separated, and that they must be accepted without changing the dotting of an "i" or the crossing of a "t," he entirely ignored the rights of the Senate and the American people to have a voice in a matter which for all the centuries to come would settle the destiny of this nation for well or woe. That was in itself an effort at autocratic power which no emperor on earth would have dared to attempt, and regardless of all personal feeling the Manufacturers Record has vigorously assailed that undemocratic position. Then when Mr. Wilson refused to accept any reservation despite the earnest solicitation of Bryan, Taft and many advocates of the League, and ignored the known hostility of many Democratic Senators, he split his own party wide open as shown by the vote of many Democrats whose sense of duty to the nation was stronger than fealty to their party. And in this defeat of the League the country has won a mighty victory for independence of action and for patriotism above party.

All honor to the patriotic men, Democrats and Republicans, who made this heroic fight for the preservation of our country!

## LIBRARY AID ASSURED

Council Names Committee to Devise Ways and Means.

Following a plea by Dr. J. L. Cochran, representing the Carnegie library, city council last night authorized a committee, composed of Councilmen C. W. Utter, R. E. Shaw and Jesse L. Cypher to devise means of lending more financial assistance to the library. The committee will report at the next meeting.

The library management needs for 1920 not less than \$7,000, Dr. Cochran told council. He asked council to add \$500 to the amount appropriated last year, \$2,600. Additional aid from the school board also is expected, he said. The school board last year set aside \$2,500. There is now a deficit of \$412. Necessary expenses this year cannot be met by appropriations of less than \$7,000, he said. Miss Margaret Whitman accompanied Dr. Cochran to the meeting.

## IN TRAINING.

He would be brave in dangers great.  
He spoke of deeds he hoped to do.  
Some day the stirring call of fate  
Should stir his soul and lead him true;  
In one bright hour the strength he'd find  
To stand the right to stand with kings.  
But he was selfish and unkind,  
And was untrue in little things.  
He longed for glory yet he failed;  
To train his spirit for the test.  
He thought that when he was assailed  
His courage would be at its best;  
He'd stand alone through life without  
"Heeding the laws which govern men."  
Thinking when danger called him out  
He would be brave and ready then.  
But he had failed in petty ways,  
And yielded to temptations small.  
The careless round of many days  
Had softened him, and when the call  
For courage came to him at last,  
The easy living of the past  
Left him no longer at his best.  
Life is a training court for all;  
Who would be strong in time of need,  
Must prove his strength by duties small.  
And not in one great shining deed.  
Brave men are brave from day to day.  
True men, if everything is true.  
Who would have courage for the fray,  
Must be courageous through and through.

## OLD CIVIL SERVICE BUILDING BOUGHT BY SALVATION ARMY

The Civil Service Building, which became the property of the Government as the recommendation of Theodore Roosevelt when he resigned as Civil Service Commissioner in 1905, has been purchased by the Salvation Army at Washington, D. C., and will become a typical Salvation Army institution, with hotel accommodations, bowling alleys, club rooms, and sleeping quarters designed especially for the thousands of new women government employees. More than one million five hundred thousand citizens of the United States who have made application for government jobs under the Civil Service have sent their letters to this building. It is located at 8th and E streets, Northwest, and was first used to house the Money Order Division of the Post Office Department. It has also contained the Bureau of Mines, together with several branches of the War Department and Public Health Service.

The new Salvation Army Building was erected originally in the interest of the Post Office Department, which was at that time in an old white structure on the opposite side of the street. An iron bridge was erected to connect the old white stone structure and the red brick building which has since been purchased by the Salvation Army. That bridge was taken down, and is now located in beautiful Rock Creek Park, where thousands of pedestrians, automobilists and horseback riders cross every year, totally unaware of the history of the bridge they are using.

The Civil Service Commission recently acquired the old building. When the Commission originally occupied the building less than fifty thousand persons were examined for Civil Service jobs in a year. That number grew to more than a hundred thousand in the year 1911. More than a million five hundred thousand persons have been examined by mail or personally under the roof of that building, and more than nine hundred thousand American citizens have passed the examinations set by the Commission. There is no State in the Union which does not contain people who have been or are interested in the old Civil Service Building.

The Salvation Army purchased the structure for \$30,000, in cash, the money coming from the campaign in the spring of 1919.

## MOUNT PLEASANT WILL TEST THE NEW BELL RATES

Town's Impairment Is Service  
Not What It  
Should Be.

### OLD SYSTEM STILL IN USE

User telephone must resort to the  
Old Method of Turning Crank to Get  
"Crazy" Numerous Matters Core  
Here Solons at Regular Meeting.

Special to The Courier.  
MOUNT PLEASANT, April 6.—After  
a representative of the Bell Telephone  
company, Mr. Morgan, had explained  
the reason for the proposed increase  
in rates, borough council last night  
decided to file a protest with the Pub-  
lic Service Commission.

Mount Pleasant's complaint will be  
based primarily on the fact that the  
old time system which makes it neces-  
sary to ring by the crank method to  
reach the central office is still in use.  
"You're 25 years behind the times  
now," Mr. Morgan was told. The repre-  
sentative admitted that the service  
is not up to date but did not say  
why. The Tri-State is the modern  
system in use.

Objection is raised as to the dis-  
continuation of free service to Scott-  
dale.

Solicitor Eugene Wyden and Clerk  
Frank L. Overly were directed to file  
the protest.

Complaints were read from Joseph  
Hartigan, John L. Fields and A. T.  
Collins concerning condition of the  
sidewalk on Bridge Road avenue to  
the cemetery. A motion was adopted  
to have a graded sidewalk. Work  
will be begun within 10 days at mak-  
ing a passable sidewalk on that street.

William Quee, W. S. Leeper, M. S.  
Barnhart and F. Stevens, residents  
of Center avenue, complained about  
paying \$4.50 for gas.

It was decided to send two council-  
men, the burgess and solicitor to the  
convention of the Association of Bor-  
oughs to be held in Monroe county.

The burgess' report was read and  
accepted. A check for \$10 collected. A  
check for \$10 was given to council.

The police committee reported one  
officer on duty all night and stated  
this was enough police protection  
at night. It was decided to add an-  
other officer.

The party committee was in-  
structed to look after the borough  
building.

It was decided to borrow \$1,500 from  
the burgess and sewer fund for the  
general fund.

Complaints were heard about con-  
dition of poles of various companies in  
the borough, and these companies will  
be directed to remove immediately.

A treasurer's bond was accepted.  
Finance will be taken up at a  
special meeting to be held soon.

Missionary to Speak.  
The thank-offering meeting of the  
Ladies' Missionary society will be  
held Thursday evening, April 8, at

A LONG COAT

Brown peacocks is the chosen  
material of this coat, colored with  
opossum. The yoke is a most un-  
usual feature and gives an oppor-  
tunity for small clusters of tufts  
both front and back, which achieve  
in a clever way the wanted fullness.  
The belt crosses and buttons in the  
same way at the back as it does in  
front.

## "WE'RE ALL RIGHT WHEN WE KEEP A BOTTLE HANDY"

Farmer Keeper Refers to Nerv-Worth,  
Which He Keeps, as "A Doc-  
tor in the House."

The giver of this typical statement  
lives near Chester, West Virginia.  
When he made it very recently to East  
Liverpool's Nerv-Worth druggist he  
indicated the existence of a wide-  
spread practice. Thousands "keep a  
bottle of Nerv-Worth handy" in their  
medicine chests.

Larkin's Drug Store—We have used  
Nerv-Worth at our house, and think it  
is a very good medicine. My wife has  
been bothered with stomach trouble  
for years, and she gets a great amount  
of benefit from Nerv-Worth. I find it  
helps me whenever my stomach gets  
out of order, or my appetite fails me.  
Just keep a bottle handy and take a  
few doses, and I am all right again.

CHICAGO, April 6.—The body of  
Jeanne Ann DeKay, 20 years old, pro-  
tege of Miss Jane Addams, whose dis-  
appearance from Hull House on De-  
cember 30 was followed by a national  
search, was found Monday in Lake  
Michigan.

Mrs. Gertrude Howe Britton of  
Hull House identified the body. Ex-  
cept for a coat and hat which were  
missing the clothing on the body was  
the same as Miss DeKay wore when  
she disappeared. A scar on the left  
temple and smaller marks under the  
eyes assisted in the identification.  
Mrs. Britton said she was convinced  
that the girl had committed suicide.  
Coroner Hoffman said the body had  
been in the water three months.

## This Tells You How to Get Benefit of the Best Senna

Finest Grade of Egyptian Senna Leaves used in  
compounding Dr. Caldwell's Syrup Pepsin.

PROMINENT importers and  
wholesale dealers in crude  
drugs and medicinal herbs  
gathered from all parts of the  
world do not hesitate to say that  
the market for the better grades of  
medicinal herbs, roots, oils, etc.,  
is practically confined to the lead-  
ing manufacturers of the so-called  
package medicines, who buy only  
the very best, and that the manu-  
facturers of Dr. Caldwell's Syrup  
Pepsin are the largest users of the  
best grade of Egyptian senna  
leaves in the world.

The potency of a tea brewed  
from senna leaves to relieve con-  
stipation has long been recognized,  
not only by the medical profes-  
sion, but by the public generally.  
In fact, senna has been known and  
used in medicine for more than  
five centuries. The cheaper  
grades of senna, such as are usu-  
ally sold at retail, have, however,  
a tendency to grip and cramp

which makes their use unpopular  
with most people.

In Dr. Caldwell's Syrup Pepsin  
the finest Egyptian senna is com-  
bined with pepsin and other valu-  
able agents, essential oils and pure  
cane sugar syrup to make an ex-  
ceptionally valuable tonic-laxative  
for the relief of constipation and  
resulting disturbances of the  
stomach and bowels. The com-  
plete formula is plainly printed in  
English, French, and Spanish on  
every package. Thousands who  
formerly bought an inferior grade  
of senna leaves now use Dr. Cald-  
well's Syrup Pepsin instead. It  
is sold in drug stores everywhere.

In spite of the fact that Dr. Cald-  
well's Syrup Pepsin is the largest selling  
liquid laxative in the world, there  
being over 6 million bottles sold each  
year, many who need its benefits have  
not yet used it. If you have not, send  
your name and address for a free trial  
bottle to Dr. W. E. Caldwell, 511  
Washington St., Monticello, Illinois.

## COMMON FOLKS MADE POSSIBLE SUCCESS OF BAPTIST CAMPAIGN

"When a large effort succeeds the  
critic imagines that he knows the  
reason. Often it is a nigger in the  
wood-pile." He says that the whole  
truth is not known or it would sound  
different, might differ. So when the  
campaign for \$50,000 was finished by  
the First Baptist church Sunday,  
March 28, with a well-rounded sum of  
\$75,000, here and there went a whisper  
that two or three paid the bulk of it,"  
says the pastor, Rev. J. Earle Ed-  
wards.

"The results tabulated today knock  
all such theories in the head. The  
common man, as usual, saved the day.  
The so-called big man did his part,  
and is to be congratulated for it, but  
he did not do the other fellow's part  
in this campaign. Look at the figures  
to settle the critic.

"The total of \$75,000 was subscribed  
by 211 wage-earners. The membership  
of the church is 436. About a dozen  
in addition subscribed to this fund,  
many of whom have since united with  
the church. Of this 211, 25 gave 25  
cents a week or less, 50 others gave 50

cents a week or between 25 cents and  
50 cents, 50 are down for a dollar, 10  
for \$1.50, 30 for \$2, 30 for \$3, six for \$4,  
two for \$5, six for \$6, and two for \$20  
a week. When one considers the  
number of non-wage-earners in a  
group of church membership totaling  
436, including young people in school,  
211 is a fine showing for general par-  
ticipation in the drive. Nothing is so  
wholesome in an effort of this kind  
than to have everyone do his own  
part and not lay down on some other  
fellow.

"No one said 'Let George do it,' be-  
cause before we started out the an-  
nouncement was made that 'George  
was dead.' May he never be raised  
from the dead.

"The churches of the community  
will be more than encouraged by the  
tabulated results of the recent inter-  
church demonstration here. When  
churches can see that the rank and  
file will respond if the ministers have  
faith in them and they are informed  
correctly about the needs of the day,  
a new world will be on the way."

Here's a Connelville fact.  
You can test it.

J. H. Kuhns, blacksmith, 712, Mc-  
Cormick avenue, says: "Off and on for  
the past several years, I have had oc-  
casion for a kidney medicine and  
Doan's Kidney Pills are what I always  
use. My work is a severe strain on my  
back and kidneys. My back would pain  
me and sharp pains would catch me  
over my hips. I often got to feeling  
tired out and run down and was un-  
able to work as I should. My kidneys  
would also act too freely, causing me  
to get up several times at night. When  
I had an attack of this sort, I would  
always use a box of Doan's Kidney  
Pills and they would remove the trou-  
ble. I am pleased to recommend this  
old, reliable remedy."

## HARRY RANDOLPH LEADER OF BETHANY BASKETEERS

Harry F. Randolph, son of Mr. and Mrs. C. F. Randolph of Dickerson Run, a sophomore in the College of Liberal Arts of Bethany college and captain of the quintet that just finished such a successful season, was chosen to lead the Bethany college five again, next year at the basketball banquet, centered the varsity team by President Goodnight several days ago.

Captain Randolph, who has proven himself such a capable leader during the past season, is one of the best all-around athletes in the college, having played halfback on the football team, center on the basketball team and pitcher on the baseball nine. He received his "varsity" school work and gained his first knowledge of athletics in the Dunbar township high school at Leisenring. He played baseball last summer with the Dickerson Run M. C. A., where he gained quite a name for himself as a pitcher.

George W. Roark, also well known in Connelville athletic circles, who was "Randy's" battery mate last year, was also awarded his basketball "varsity."

## BASEBALL

A regular fanling bee will be held tonight at the club rooms of the Connelville Independents, 407 Second National Bank building. The players who have been mentioned as prospective candidates for the team and others interested in the welfare of the club are cordially invited to attend. At 8 o'clock the directors will hold a short session. Players who have been assured berths on the team will be measured for their uniforms. The arrangements for securing the use of Fayette Field were completed yesterday. Everyone interested in baseball is asked to attend. It is earnestly requested that the business manager and the team manager attend the meeting.

The Trotter team was unable to get on the field yesterday, due to the unfavorable weather. It is understood that this team will get away to an early start this season. The opening game will be played as early as next week. Opponents have not as yet been secured, but the boys want to open as early as possible.

Frank Horner of Scottsdale was a visitor here last evening and called on several members of the Connelville baseball club. Frank, you know, is that speed agent on the slabs, in the national pastime. In speaking of the prospects of a successful baseball season in this vicinity he said:

"This season is going to be the banner one in baseball. With a good fast team here in Connelville it will no doubt get the other nearby towns interested and they also will put out teams. In understanding that Scottsdale anticipates organizing a ball team, backed by whom, I do not know. Reports have me signed up with any number of clubs, but today I am as free as the wind."

Horne is the property of the Albany club, which was transferred from Providence.

## BASKETBALL

The fast St. Vincent basketball team plays the Fayetteville club at the Scottsdale Y. M. C. A. tonight. Hume, the local star, will be in the line-up for the Milltown. Tomorrow night St. Vincent comes here and mingles with "Pike" Henry's Casey club at the parochial hall. This is the last game of the season in this vicinity. The Baltimore & Ohio Y. M. C. A. juniors have not finished their schedule for the local "Y" championship, the games being interrupted by the Easter holidays. They will shortly be resumed.

The Gaintown high basketball team, which plays in the P. Y. A. L. championship series at State College next Friday and Saturday, is working away like a lot of beavers trying to improve the playing. Present plans

## No More Corn Suffering

"Get-It" No-Or Leaves a Corn On Any Foot For Very Long.

The hurting "pep" goes right out of that corn the moment you feel it. "Get-It" is the only corn remedy that is so effective and so easy to use.

Corns and "Get-It" Can't Live Together. You have no more pain but will notice the corn getting loose and wobbly. In a day or so, you lift it right off without any feeling. That's the end of the corn and of your troubles. Millions have proved "Get-It" to be the only and only unailing, common sense corn remedy. Why not you?

"Get-It" costs but a trifle at any drug store and carries a money-back guarantee. Mfg. by E. Lawrence & Co., Chicago.

Sold in Connelville and recommended by the world's first corn remedy, Connelville Drug Co., Vol. 100, Connelville Drug Co., C. Roy Hotel, Windsor Pharmacy, Steel & Co., J. C. Moore, A. A. Clarke.

are that the team will leave Thursday morning for the scene of the contests which will make it possible to get a good night's rest before the opening struggle. A meeting will be held at the armory, State College, Friday afternoon at 4 o'clock to make final arrangements for the contests. At that time the schedule of games will be made up, each manager drawing a slip from a hat which will state the name his team is to play.

## BOWLING

The Manhattan five bowling team has received word that its entry was received for the Southern duckpin tournament, and that it has been assigned playing time. The singles are to be rolled at 7:30 P. M. The double up and roll at 8:15 P. M. The five-man team comes to the mark at 9 P. M. o'clock Wednesday evening. The team is going into the series under a big disadvantage, as they will be compelled to bowl one game after another without any rest. Whereas the other teams entered will have ample periods of rest between their games. It is understood that this is the case of all visiting teams which gives the Pittsburghers a big handicap. The tourney will be rolled on the Club alleys, Pittsburgh.

## FAVORS BAN ON FREAKS

The recent ban placed on the "shille" and "spit" ball will be a big help to the game, according to Walter Johnson, twirler for the Washington American leaguers.

"I believe all the fans and most of the pitchers will be glad to see trick pitching discarded," the twirler said.

Johnson says his arm is in great shape and he's looking for a big season.

## RUTH WORTH \$200,000

Habe Ruth has been insured for \$200,000 by the Yankee owners.

This is probably the first case where a club has insured a player, at least to such a great amount as this. Ty Cobb is reported to have been insured by the Detroit owners, but no team ever spent as much as the Yanks to protect a star.

## STOMACH GOOD AS NEW. FOUR DOCTORS GAVE HER UP

Mrs. Hendricks, Bedfast Five Months, Was Able to Work in Two Weeks.

"I was sick last winter for five months with stomach and bowel trouble. Could not turn myself in bed without help. I was under the care of four doctors, and they gave me up. Then Mr. Mills, the druggist, persuaded my husband to try a bottle of Milks Emulsion. I had only taken it two days until I was sitting up in bed, and in two weeks I was doing my own work. When I began taking it, I weighed only 70 pounds; now I weigh 190 pounds."—Mrs. Mary Hendricks, 900 Litchfield road, Owensboro, Ky.

Thousands of people who have suffered for years from stomach and bowel trouble, have found relief, almost from the first dose of Milks Emulsion. And it is real, lasting benefit.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

## DROP IN SHOE PRICES

Government Experts Declare, After a Survey of Market Conditions.

WASHINGTON, April 6.—Prices for shoes are due for a very decided drop, say government experts who have completed a survey of market conditions which they declare, do not warrant present quotations. They predict a gradual recession that in the aggregate will become very pronounced within the next few months.

Slackening demand has affected hides, leather and shoes, the experts' survey revealed. Large accumulations of stocks of hides are reported. In some districts reports show that a check on the finished product may have been influenced by a desire to prevent sharp reduction in retail prices.

Shoe retailers are holding back in orders for fall trade, expecting a reduction in prices. Many manufacturers, as a result, have an over supply of manufactured goods.

## SAVAGE HAS RED BLOOD IN VEINS

Civilized Man Lacks Exercise and Air, Organs Become Weakened.

"Nine out of every ten people in most communities like this suffer from nervousness, or from stomach and liver troubles, kidney and intestinal ailments, imperfect digestion, gastritis, headaches or lack of ambition," said the Tanjiao Man.

"This is all due to our present faulty methods of living, and is more prevalent in civilized sections than in the jungle, because the savage loves outdoor exercise and air. The civilized man eats rich food, lives in stuffy houses and never walks when he can ride. The result is that his stomach fails in its duties; his kidneys and other organs become clogged with waste matters, and he finally yields to poisons generated within his own body."

Tanjiao, which is daily demonstrating its miraculous powers to overcome vital derangements arising from misused organs and to restore and keep up mental and physical vigor of youth, is sold here by Bright's Pharmacy, Connelville Drug Store, and Fred H. Hammening.—Adv.

## FIGHT WILL BE MADE AGAINST INCREASES IN TELEPHONE RATES

Customers Deny Reasonableness of the Proposed Schedule and Resent the Threat to Cut Off Service.

HARRISBURG, April 6.—The movement of the Bell Telephone company to advance its rates is to be vigorously contested by business organizations, chambers of commerce and other bodies in different sections of the state. What has stirred them to activity more than anything else is the notice given subscribers last week, when monthly toll bills were rendered, that

the rates would be raised May 1, and if the customers did not desire service to be continued at the new rate, the notice thus given would be considered as a termination of the contract.

This notice has been strongly resented by customers and has led to the North Philadelphia Business Men's association to file a petition today for an order restraining the telephone company from putting the new rates into effect and prohibiting further publication of such notices as that recently sent to the subscribers.

The petition asserts that the notice is "unlawful, unfair, calculated to intimidate the public and is an attempt to make it appear as if a final hearing had been held, the majority of the public had acquiesced in the proposed increased rates."

The reasonableness of the new rates having been called in question by this and other petitions a hearing will be held by the Public Service Commission. According to announcement made by the Philadelphia office of the company the rates will not be changed unless, or until, approved by the commission.

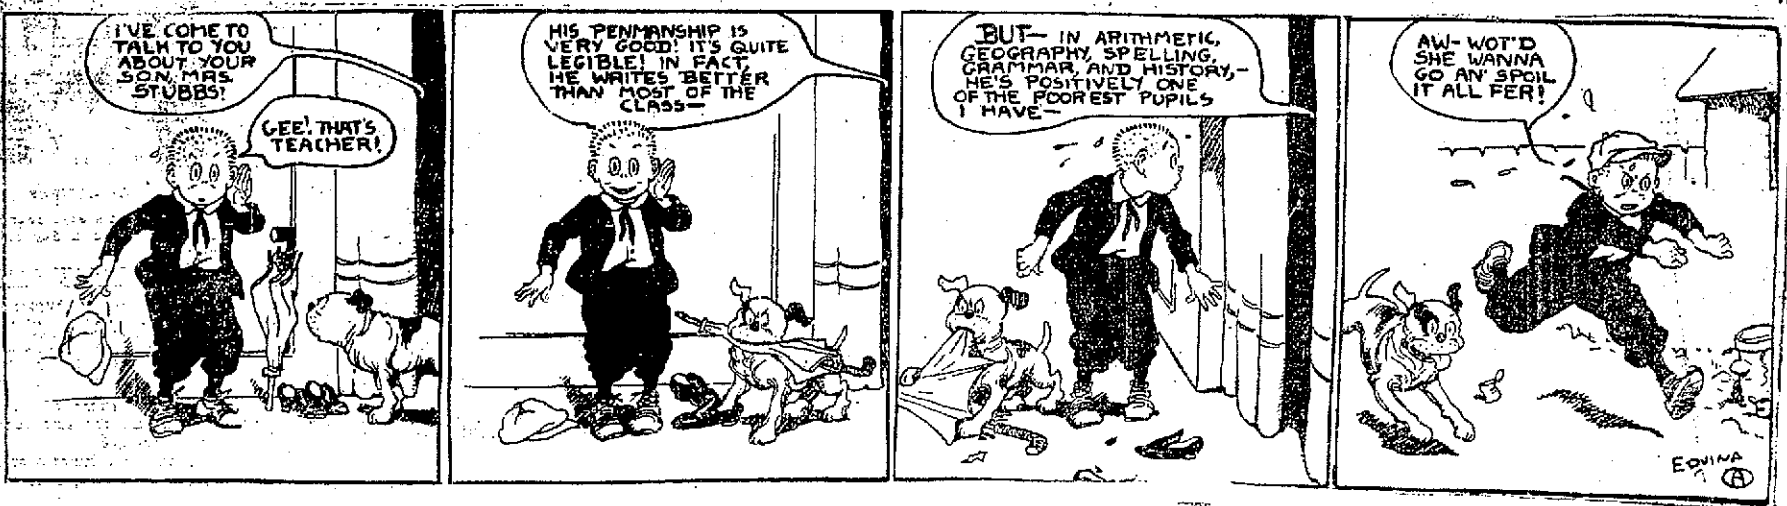

Chamberlain's Cough Remedy. The great benefit derived from the use of Chamberlain's Cough Remedy has been gratefully acknowledged by many. Mrs. Benjamin F. Blakeney, Decatur, Ill., writes, "Chamberlain's Cough Remedy is by far the best medicine for colds and coughs we have ever used in our family. I gave it to my children when small for croup and have taken it myself."—Adv.

Could No Berlin to Tell All. "I could not tell you all the benefits I had from Chamberlain's Cough Remedy and Tar," writes Miss Rose Florke, 269 Hawkins Ave., N. Braddock, Pa. "I had a cold, dry chest and fearing it would cause pneumonia I tried Foley's Honey and Tar and it was not long till I felt relieved. I hope others suffering from such colds will try it." Many such letters have been written about this time-tested, reliable family medicine for colds, coughs, croup and whooping cough. Sold everywhere.—Adv.

## PENN LOSES GRIDIRON STAR

Harry Robb, One of Foremost Backs in  
Collegiate Ranks, Will Graduate  
Next June.

Harry Robb, the Pittsburgh boy, will be lost to Penn State next season. Robb was one of the foremost half backs in the collegiate ranks last autumn. He will graduate next June, together with a number of State's other gridiron stars. Football followers claim Robb is one of the greatest open-field runners in the East, and he has also proved himself to be a great field general.

Japan and Baseball.

Japan is one of the few nations of the earth that has adopted the "national pastime" of the United States, the game of baseball, which grew up, in its present form, in the latter country. The game has been transplanted, has taken root, and is thoroughly flourishing in the island kingdom. But the Japanese, according to one of them, recently travelling in America, are making all their baseballs by hand, not yet having perfected any machinery for manufacturing them. This sojourner, who is a mechanical expert, was much interested, while on his trip, in learning the method by which the balls are made. The playing of the game in Japan, says this traveler, is widespread. A few years ago two of the Japanese universities sent teams to the United States, where they engaged in competition with American university nines. Their ability was marked, and their sportsmanship excellent. The common interest of the people of the two nations in this sport has been recognized as a possible source of increased understanding between them.

Mongolians Great Meat Eaters.

Inhabitants of Mongolia are great meat eaters, living in some cases entirely on mutton. It is not uncommon for a Mongol to consume ten pounds of this meat at one sitting. He also compares other foods by asking if they are as good as mutton. The Mongol puts mutton fat in his tea, which is prepared with milk from the poorest grade of tea, pressed into bricks. He drinks enormous quantities of this. 30 cups a day being no uncommon amount for an adult. The natives eat whenever opportunity comes, there being no regular meal hours.

Water is scarce in Mongolia. A few wells along the caravan route furnishing the entire supply. During the winter and spring the camel is the only animal that can cross the desert and subsist on the dried-up grasses. At this season of the year, blocks of ice are carried for water supply, and in other seasons two large tubs are carried on each camel, one tub on each side.

Chinese Towns Thrown Together.

One can never speak correctly of a Chinese village or town or even of a city as having been "laid out." It is a mere jumble of habitations. It has streets, so-called, usually a network of them. But no two of the streets run parallel, except this occurs by accident; and no one of them is straight. Sometimes in a village a quarter to a third of a mile long there will not be a single cross-road or street whereby a vehicle can get from the front to the rear of the village. Outside the treaty ports and a few of the larger towns, the paths—they are little more—are too narrow for even the passage of the rickshaws.

Remembered Father.

Stanton understands that his father is a traveling man, and tries to count the days until the two or three weeks' trip has been made, and a few hours' romp begins. At the end of two weeks recently he received a card from father explaining it would be a few days longer before he came home. Shortly after receipt of the card he was heard talking to his baby brother and quiet peeping enabled us to observe him holding the card over the baby's crib while he kept repeating, "This card is from father; don't you remember father?"

## THEATER'S ORIGIN FAR BACK

May Be Traced to Festivals Held in Honor of the Mythological God Bacchus.

Thinking back for the origin of any theatrical performance, our minds naturally revert first to Shakespeare and his Globe theater. Some of us would go back a little further; and many of us would choose Mollere, the plays he wrote and staged, often in the open, for the vain Louis and then, in his own theater, where, while he was the favorite of the king, he was the rage of France.

But these were only steps in the evolution of the theater and the play. For the origin of all dramatic representations we must go back to the days of idol worship, when many gods were thought to rule the destinies of man. Two brothers, Danaus and Aegyptus, sons of Belus, shared the throne of Egypt. After a particularly heated quarrel, Danaus, with his followers, set sail in search of a new land where he could rule alone. They landed near the Greek city of Argos, of which he shortly became king. Here, to celebrate his good fortune, he instituted festivals in honor of the god Bacchus, who was supposed to have helped to make his undertaking successful. These festivals consisted of nothing more than riotous revelry, interspersed with songs, which, after the manner of the day, were most primitive and often coarse. But the festivals soon became very popular and were held periodically all over Greece. From this beginning, in the form of a kind of public worship, which was the first entertainment or performance known, evolved the theatrical projects of later ages which developed into the institution of the theater as we know it today.

Diplomatic.  
"Young man, did you kiss my daughter in the ball last night?" questioned the stern mother.  
"I thought I did," replied the diplomatic young man; "but really, you look so young that I can't always tell you and your daughter apart."  
Whereupon the storm passed over.

## The House of Whispers

By WILLIAM JOHNSTON

There was nothing further that I could do, and I felt sad in need of rest. Throwing off my coat and waistcoat I began making preparations for bed. The notion took me to once more investigate the secret passage way. I pushed sharply on the panel as I had done before, but this time I could not budge it. I tugged and worked and pounded, but it stuck fast in spite of all my efforts. As I was struggling to force it open, there came a sharp ring at the bell of the apartment. As I was, in my shirt sleeves, I answered it. The two detectives I had seen downstairs stood there.

"What is it?" I asked.

"I arrest you for the murder of Daisy Lutan," said one of them, and with that they sprang forward and plucked my arms.

"Why, this is absurd," I laughed in their faces, conscious of my utter innocence of the crime. "I had nothing to do with it."

"That remains to be seen. Put on your coat and come along."

Still holding me fast, they went back with me to my bedroom. Chitching me tight they made me put on my coat, and no sooner had I done so than one of them snatched handcuffs on me.

"Look at this, Jim," said one of them, pointing to a spot on the front of my coat.

"That's blood all right," said the other, after inspecting it.

"I got that when I was helping Mr. Wick lift the body to the couch," I protested.

"Tell that to the judge," the detective called Jim scoffed. "Better look around for the gun, Cullen."

"You'll find no gun here," I cried. "I never owned one."

Nevertheless Cullen began rummaging through the drawers of my dresser. Suddenly he gave a triumphant exclamation and drew something from beneath a pile of shirts in the second drawer.

"Here it is," he announced, holding

"Here it is," He Announced, Holding Up Before My Astonished Eyes an Automatic Revolver.

up before my astonished eyes an automatic revolver.

"I never saw it before," I gasped. The detective merely laughed.

"There's one bullet gone," said the man who was examining it.

"Come along, young fellow," said the other detective gruffly. "The bullet settles it. We've got the right party."

### CHAPTER IX

A prisoner in a police station cell, I passed a sleepless night. Conscious as I was of my utter innocence and confident of my speedy release, nevertheless I had to admit that the detectives from their point of view were perfectly justified in placing me under arrest.

For a burglar to have gained access to the apartments without the connivance of the employees seemed almost an impossibility. For him to have escaped from the building after having murdered Miss Lutan without being detected seemed also highly improbable. Then, too, there was the damning evidence of the blood on my coat and the fact that I had been found at the door of the apartment. I had not observed the stain on my clothing until the detectives discovered it. My explanation of how it had gotten there was the true one, yet I could readily realize that it might sound fishy to others.

On the face of it the tragedy in the Granddeck looked like an inside job. The revolver, with one bullet missing, was the strongest sort of evidence that I was the murderer. Yet I never had seen the weapon before and could not imagine who could have placed it there. There was only one explanation possible. It had been purposely planted there with the definite object of throwing suspicion on me.

The one person—the only person—whom I knew to have been in my room after the murder was committed was Claire Bradford. Could she have done it? I remembered that Barbara had showed me a revolver in her possession. I wondered if this could be the same weapon. I did not think it possible that Claire herself could have used it. I could imagine no motive why Claire Bradford would want to kill Miss Lutan, yet it must have been she who had hidden the revolver in my dresser. What had been her motive? How had she got possession of the revolver after the murder?

Come what may, I had no intention of telling any one—not even Gorman—of Claire's second visit to my apartment. For Barbara's sake I made up my mind I would keep my lips closed about that incident, even if I had to stay in prison indefinitely. At the police station when the detectives had brought me in, I had quietly but firmly refused to answer any questions, although they had badgered me for nearly two hours before they let me alone.

"Where did you live before you came to the Granddeck?"

"Where did you work?"

"Where is Rufus Gaston?"

"Where do your people live?"

"Why did you kill Daisy Lutan?"

"Where did you get the money you have?"

"We've got the goods on you. Why don't you confess?"

These were the sort of questions that were rung at me, first by one and then the other. Evidently at first they had had hopes of breaking me down.

"I have nothing to say," I had been my unvarying answer to all their questions. Finally they gave it up and locked me in a cell for the night, leaving me thankful that the honor of being a suspected murderer relieved me from sharing a cell with some of the frowzy prisoners I saw brought past my barred door.

"Haven't you any friends you would like to have notified?" was the last question they asked as they left me.

"I have nothing to say," I repeated once more.

No, was this answer this time more stubbornness. Who was there that I could notify of my plight? Birge and Reller, my two intimates, were somewhere on the high seas. The men whom I had known in the office where I had worked, for obvious reasons, were not to be called on. I had no idea of the whereabouts of my aged relatives beyond the fact that they were somewhere in Maine.

I had no intention whatever of communicating the fact of my arrest to my mother. Indeed, I was hoping that she would not hear of it until after my innocence was established.

I thought of Gorman. I would have been glad of his counsel, but I remembered that I did not know where he lived. He had told me he was giving up his position at the hotel. It would be useless to try to find him until morning.

Yet in spite of my apparent friendlessness, although to all appearances there was no one in New York to whom I could turn in this time of trouble, it was a wonderful comfort to feel that I was sure of one staunch friend—Barbara Bradford.

Although we had been acquainted but a few days, and although hardly a word of love had passed between us, I knew that her feeling for me already was something greater than friendship. I knew that she trusted me and that she would remain faithful in her affection for me, no matter what accusations were brought against me. I had been madly in love with her from almost the first time I saw her. What ever happened, I must keep her out of it. I must find some means of warning her to say nothing to any one. I knew that her first impulse as soon as she heard of my arrest would be to come to my rescue, regardless of the fact that in establishing an alibi for me she would be blasting her own reputation. Under no circumstances, even if I was convicted, must she be permitted to speak. No explanation can account for the presence of a young girl alone in a man's room at eleven o'clock at night, even though she and I both knew how utterly undeserving of censure her presence there was and how important had been her motive in coming there.

Mention of Barbara's name in any way in connection with a murder case would be certain to wreck her sister's matrimonial plans. It would mean the ruin of her mother's ambitious and the unmaking of the parlor of her future. It would mean that the reproaches of her mother and sister would be heaped on my Barbara's poor head.

I was still unsatisfied in my own mind as to just what part Claire Bradford was playing in the web of mystery about me. She was emotional and flighty, given to doing rash things. I felt that there was a strong possibility that relations with her ex-husband had been in some way re-established. I felt at times that she was being used as a tool by the conspirators in the Granddeck mysteries. If Claire was involved in any way, it behooved me to more carefully test she should be betrayed in my efforts to clear myself.

There was nothing for me to do but to sit tight and take my plight as philosophically as I could until I could get in touch with Gorman. As soon as it was morning, I hired a tall attendant to bring me a morning newspaper. On the first page I found an account of the murder under glaring headlines and read it with intense interest, my conviction growing with each line that I read that the police case against me was far better backed up than I ever imagined it could be.

Then and there I made up my mind never again to believe anything on purely circumstantial evidence. No one knew better than I how utterly innocent I was of that crime, how upright my conduct in New York had been, and how honest my motives for all my recent actions had been, yet this is what I read in the newspaper:

### "Foreign Trade Through Foreign Investments"

## French Government Bonds Compared

BANKERS, exporters and statesmen all realize the serious handicap to American business caused by the present exchange rates on France. It is most difficult for American exporters to develop their French business. On the other hand, manufacturers in France seeking an American market have an unusual incentive, as they are paid in dollars.

It is obvious that sooner or later an improvement must be effected which will result in:

1. A marked increase in our export business with the French.
2. A decided profit to Americans who have purchased French bonds at the abnormal exchange rates which have existed for the past six months.

While many realize that opportunities exist they have not clearly defined in their minds the relative merits of the three Principal French loans. In order that bankers and investors may have at their disposal information which will enable them to see at a glance

## TELL YOUR WIFE CORNS' LIFT OFF

Doesn't hurt a bit to lift corns or calluses off with fingers

Not a twinge of pain or soreness before applying, or afterwards. This may sound like a dream to corn-plagued men and women who have been cutting, filing and wearing torturous plasters. Yes! Corns lift off and calluses peel off as if by magic, says this Cincinnati authority.

A quarter ounce of Frezzone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears, then shortly the corn or callus will be so loose that it lifts off.

Frezzone dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep it on the dresser and never let a corn or callus ache twice.—Adv.

some of the most expensive restaurants, Miss Nellie Kelly, the telephone girl at the Granddeck, reported that only the night before Nelson had taken her to dinner, ordering champagne and buying taxicabs, and had tried to pump her about the tenants in the building.

The one fact that stuck out in the whole article that seemed of vast importance to me was the fact that Wick had informed the police that I had been discreditably discharged from my last place of employment. How did he know that? Certainly I had not told him. I had told no one of the occurrence except Barbara Bradford, and I was sure she had not revealed it to anyone.

It was indubitable proof to me that Wick, or someone with whom he was conniving, had been having me shadowed. Even my great-uncle Rufus did not know where my place of employment was. Evidently the plot to discredit me had begun the day I arrived at the Granddeck. I had been discharged on account of some mysterious note my employer had received. I must have had me followed to my place of business and to have sent that note for the express purpose of bringing about my discharge. But why? That was the puzzle.

As I pondered over it I decided that my chance meeting with Barbara Bradford in the park had upset the plans of a blackmailing hand, and that they were avenging themselves on me for my unwitting part. I was certain that Wick and Letty Moore's wife were in connivance with them, and that the gang possibly included Claire Bradford's ex-husband. Wick had a passkey that enabled him to enter the Lutan apartment. Undoubtedly he could also enter mine as well. But Wick could have nothing to do with the planting of the revolver in my room. I was positive about that. He had not been out of my sight for a single moment from the time that we had discovered the body. The only way that it seemed possible to involve him in that was on the theory of a prearranged plot to make me appear the murderer. Was it possible that Claire Bradford had participated in this? I knew she had been in my room after the murder. It must have been she who put the revolver there.

## REDUCTION 10.58 PER CENT IN MINE FATALITIES IN 1919

Which in Turn Showed An Improvement of 4.5 Per Cent Over 1918.

### HAULAGE AND ROOF FALLS

Still Hold Lead in the Number of Accidents, But the Former Decreased 25 and the Latter 15 Per Cent; Conditions Not Normal During the Year.

A summary and analysis of coal mine fatalities occurring through the United States during the calendar year 1919 has just been issued by the Bureau of Mines, Department of the Interior.

The reports received from the inspectors for the year just closed show a reduction of 10.58 per cent in coal mine fatalities as compared with 1918, while in 1918 the reduction was 4.5 per cent from 1917 figures. The total number killed was 2,307 in 1919 and 2,539 in 1918, a reduction of 232.

There was a decrease of 128, or 25 per cent, in fatalities resulting from tunneling and locomotives, and a decrease of 193, or 15 per cent, in the fatalities due to fall of coal or rock. Surface accidents show a decline of about 25 per cent as compared with the previous year. There were, however, increases in accidents due to gas and dust explosions and also of explosives. There occurred during the year nine disasters in which five or more men were killed, representing a total of 261 fatalities.

The worst disaster of the year was the one occurring at the Baltimore Tunnel No. 2, Wilkes-Barre, Pa., resulting from the explosion or burning of a number of kegs of powder, by which 92 lives were lost. This disaster emphasized the need for stricter regulations relating to hauling men and explosives into the mine at the same time. The question of whether electricity was responsible or not does not affect the consideration of the various dangers which arise in underground transportation and handling of explosives. At best the handling and hauling of explosives is hazardous.

### Itching, Irritating Skin

Worst Form of Skin Trouble Quicker Relieved by Inexpensive Treatment.

If you suffer with any skin trouble and the itching seems unbearable, do not think you have to use some greasy, unpleasant ointment to get relief. Try HOKARA, a pure and pleasant antiseptic cream—guaranteed to contain no grease and has cleansing ingredients which wash into the irritated skin to do their healing and does not stay on the skin only to look bad and soothe.

HOKARA's power to relieve quickly any irritation of the skin and make it soft, white and beautiful might be called miraculous.

Many skin troubles, such as pimples, blackheads, acne, barbers' itch, etc., seem to disappear magically, and HOKARA with its potent healing qualities is a successful treatment in curing chronic skin diseases like salt rheum, eczema. It is possible for anyone to try HOKARA and be convinced of its merit—simply because A. A. Clarke, Druggist, is selling a liberal sized jar for only 35 cents. It is sold on a guarantee of satisfaction or money back. —Adv.

ous and such being the case, no one other than the necessary attendants should be permitted to ride in cars or cages transporting explosives. As a result of this disaster, the report of the coroner's jury to the governor of Pennsylvania brings out some important dangers to be avoided in the use and transportation of explosives.

The conditions under which the mines were operated in 1919 were not normal as the country has not become adjusted to the new commercial conditions as a result of the war. There were numerous labor troubles during the year and on November 1 a strike almost completely shut down the central bituminous field, with the result that but little coal was mined during the month of November and early part of December. According to the preliminary estimates by the United States Geological Survey for the year 1919 the total production was 453,062,609 tons of bituminous coal, which is a reduction of 121,223,000 tons as compared with the previous year. The anthracite production is estimated by the United States Geological Survey as 86,240,000 tons, or a reduction of 12,800,000 tons from the preceding year.

While the actual number of fatalities is considerably less than in 1918, the ratio, on a tonnage basis, is slightly higher. The number of tons produced per fatality in 1918 in the bituminous mines was 285,552 as compared with 275,000 tons per fatality in 1919. In the anthracite field the production per fatality in 1918 was 262,873 tons as compared with 135,700 tons per fatality in 1919. The average for the entire coal mining industry was 235,990 tons per fatality as compared with 267,873 in 1918; 241,618, in 1917; 265,094, in 1916, and 234,297 in 1915.

Complete figures showing the number of men employed are not available but estimates received from the inspectors total about 765,000. Although the number of names on the pay rolls may be slightly in excess of 1918, the actual number of days labor performed during the year will be much less

than in the preceding year because of the irregular working of the mines on account of car shortage, strikes and the unsettled demand for coal. When the number of employees is properly weighted on the basis of full-time workers, the reduction in accident rates may not be as great as first appears. This rate on a tonnage basis does not show any improvement; in fact, the contrary is indicated.

### WHEN A MAN IS DOWN AND OUT

with a miserable cold, he just can't do his work properly and feels so contemptibly unhappy. SIM-CO SALVE is guaranteed to relieve cold in the head or on the lungs almost immediately, because it is an antiseptic salve, that gives off refreshing antiseptic vapors for inhalation, thus reaching the innermost parts of the lungs at the same time relieving the throat or chest by application. Just get a 30c jar at the Connelleville Drug Co., or the Broadway Drug Co., Scottsdale, and apply it at night, sleep well with the air passages of the head opened and get up feeling fresh and relieved in the morning.

Millions of germs breed in these colds. It is reasonable to suppose you can't kill lagrippa germs and cure the disease quickly without an antiseptic, so why not try the new remedy SIM-CO SALVE?

It is a mighty good ointment to have on hand for cuts, sores, bruises, burns, itching piles, eczema, tetter, rash or other similar affections. It is so soft and pliable that it is especially adapted for rubbing and soon dispels your agonizing aches from sore muscles, stiff neck, neuritis and sprains. The Connelleville Drug Co., and the Broadway Drug Co., Scottsdale, who are the agents in this vicinity, are authorized to refund the purchase price if SIM-CO SALVE does not do all that is claimed for it; can you expect a more generous offer?

Get a jar today and be prepared. 30c. 50c and \$1.00 per jar. If your druggist does not keep it, order from Wm. M. Simpson Drug Co., Wholesale Druggists, Wilkesburg Station, Pittsburg, Pa.—Adv.

### How Diphtheria Is Contracted.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering diphtheria germ. If your child has a cold when diphtheria is prevalent you should take him out of school and keep him off the street until fully recovered, as there is a hundred times more danger of his picking up diphtheria when he has a cold. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. —Adv.

### Could Not Stand Straight.

It does not take long, when the kidneys are out of order and not doing their work properly, for poisonous acids to accumulate in the system and cause aches and pains. D. C. Diamond, 2666 W. 30 St., Cleveland, O., writes: "I caught cold and it settled in my kidneys. My back and sides were so lame and sore I could not stand straight. I use Foley Kidney Pills with good results and am glad to testify to their helping power." Sold everywhere.—Adv.
